Does not contain natural rubber latex.

* When ordering this component, the PT-03000-R and CL-08605-HF must also be ordered.
** When ordering this component, the PT-03000-R must also be ordered.
*** When ordering this component, the PT-03009-RW and CL-08705-HF must also be ordered.
**** Each product includes: two radiopaque polyurethane sheaths with integral side port/hemostasis valve, and one vessel dilator with SnapLock™ feature.

## LIBRARY OF CLINICAL SUPPORT

ARROW-TREROTOLA™ PTD®
Percutaneous Thrombolytic Device

The Most Proven Mechanical Thrombectomy Technology Available for Dialysis Access

Innovative dialysis access products from Teleflex are designed to meet the needs of clinicians and inspired by theme. The Arrow-Trerotola PTD improves your ability to achieve fast and easy removal of thrombi from both dialysis native AV fistulae and synthetic grafts.

Simple

The Arrow-Trerotola PTD is easy to assemble and operate, and as it comes with a mechanical thrombectomy catheter, a hand-held disposable rotator drive unit and an introducer sheath, there is no need to purchase additional equipment.

- catheter lumen sidearm: permits catheter flushing during preparation and use
- activated spinning basket macerates the thrombus
- introducer sheath and large-bore sidearm assembly simplifies thrombus removal
- short procedure time patient can immediately return to dialysis

Safe

The Arrow-Trerotola PTD conforms to AV graft and AV fistulae walls, enabling you to remove clots with minimal risk of wall damage, and without the use of thrombolics.

Proven

Satisfies key benchmarks to achieve better outcomes – including K/DOQI guidelines for both immediate and three-month patency and functionality rates. Arrow-Trerotola PTD is the only mechanical thrombectomy device indicated to pull the arterial plug.

Dialysis Access

**FOR USE IN APPLICATIONS**
Dialysis AV fistulae and synthetic grafts

**ACTIVATED SPINNING BASKET**
• macerates the thrombus

**SOFT, FLEXIBLE TIP**
• designed to manoeuvre through vessel easily

**UNIQUE EXPANDABLE 9MM FRAGMENTATION BASKET**
• conforms to different diameter walls
• shown to easily remove residual thrombus from dialysis vessel walls

Teleflex is a leading global provider of specialty medical devices used for diagnostic and therapeutic procedures in critical care, urology and surgery. Our mission is to provide solutions that enable healthcare providers to improve outcomes and enhance patient and provider safety. We specialise in devices for general and regional anaesthesia, cardiac care, respiratory care, urology, vascular access and surgery and we serve healthcare providers in more than 140 countries. Teleflex also provides specialty products for medical device manufacturers.

Our well known brands include ARROW®, DEKNATEL®, GIBECK®, HUDSON RCI®, KMEDIC®, LMA™, PILLING®, PLEUR-EVAC®, RÜSCH®, SHERIDAN®, TAUT®, TFX OEM®, VASONOVA™ and WECK®, all of which are trademarks or registered trademarks of Teleflex Incorporated.

Teleflex global operations: Australia, Austria, Belgium, Canada, China, Czech Republic, France, Germany, Greece, India, Ireland, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Portugal, Singapore, Slovak Republic, South Africa, Spain, Switzerland, United Kingdom, Uruguay and USA.
