ACADEMY

Difficult Airway Management 4 Hour Workshop

Mercure | North Melbourne VIC
12 September 2018

Teleflex

Suitable for critical care clinicians assisting with airway management in emergent situations

Learning Objectives

- Critically discuss the impact of situational awareness, communication and teamwork on difficult airway outcomes
- Align local practice with evidence based research and best practice
- Apply evidence and techniques to safely manage the routine airway
- Apply evidence based tools to assess and identify the potential difficult airway
- Discuss and demonstrate safe and effective routine airway management, Video Laryngoscopy techniques, 1st and 2nd generation LMA insertion, use of intubating LMAs, and rescue techniques

Facilitator

Leonie O'Callaghan

RN, BN Grad Dip

Perioperative

Certificate IV WT&A

Clinical Educator

Leonie has over 25 years experience in the healthcare industry, predominantly in the Perioperative environment, where she has worked for the last 7 years as a Clinical Educator.
