

THE TELEFLEX
ACADEMY

Difficult Airway Management 4 Hour Workshop

Teleflex Medical Office | Mascot NSW
13 June 2018

Teleflex

Suitable for critical care clinicians assisting with airway management in emergent situations

Learning Objectives

- Critically discuss the impact of situational awareness, communication and teamwork on difficult airway outcomes
- Align local practice with evidence based research and best practice
- Apply evidence and techniques to safely manage the routine airway
- Apply evidence based tools to assess and identify the potential difficult airway
- Discuss and demonstrate safe and effective routine airway management, Video Laryngoscopy techniques, 1st and 2nd generation LMA insertion, use of intubating LMAs, and rescue techniques

Facilitator

Kate Topham

RN, BN

Certificate IV WT&A

Senior Clinical Educator

Kate has over thirteen years' experience in Emergency nursing and extensive experience in education. Her goal is to deliver comprehensive clinical training that can be applied directly to the clinical workplace. Kate is passionate about extending high quality clinical education into rural and remote areas and has a particular interest in the care and management of respiratory illness.
