THE TELEFLEX
ACADEMY

Essentials of IABP 1 Day Workshop

Mercure North Melbourne VIC
25 July 2018

Teleflex

This workshop uses experiential learning to develop practical skills and strategies in the management of patients requiring IABP therapy

Learning Objectives

- Apply key IABP principles to decide on the appropriateness of therapy for your patient
- Prepare and insert an IAB catheter or assist with same
- Correctly set-up and start-up the IABP for patient use
- Use the arterial waveform and related pressures to monitor and optimise IABP therapy
- Use triggers and timing to optimise IABP therapy
- Troubleshoot alarms using the balloon pressure waveform
- Safely wean IABP therapy and remove the IAB catheter or assist with same

Facilitator

Marguerita Cirillo

RN, BN, MN

Grad Dip ICU

Certificate IV TAE40110

Senior Clinical Educator

For over ten years Marguerita has worked as a Clinical Educator in ICU, Simulation and Acute Care settings. She has strong skills and knowledge in Vascular Access and IABP, and is an advocate for improving patient outcomes through evidence based clinical practice. Combined with her extensive critical care experience this ensures she facilitates outstanding learning opportunities for all participants.
