

THE TELEFLEX
ACADEMY

Essentials of IABP 1 Day Workshop

Noahs on the Beach | Newcastle NSW
21 March 2018

Teleflex

This workshop uses experiential learning to develop practical skills and strategies in the management of patients requiring IABP therapy

Learning Objectives

- Describe the key principles of IABP therapy
- Apply key principles to determine applications and contraindications
- Prepare and simulate insertion of an IAB catheter
- Demonstrate IABP set-up and start-up
- Demonstrate the use of IABP triggers
- Identify arterial waveform changes and relate to key principles
- Demonstrate the impact of IABP timing
- Use the balloon pressure waveform to troubleshoot IABP alarms
- Demonstrate weaning and removal of IAB catheter

Facilitator

Alanna McInerney

RN BBSc

PG Cert (Critical Care)

Certificate IV WT&A

National Clinical Education Manager

With 25 years critical care nursing and clinical education experience Alanna is well placed to lead an outstanding team. Alanna is committed to understanding and exceeding customer expectations in the provision of education excellence. Central to her philosophy is a focus on innovation and continuous improvement. She believes the clinical expertise and strong customer and learning centred focus of her team make Teleflex Academy the perfect partner for your education needs.

Marguerita Cirillo

RN, BN, MN

Grad Dip ICU

Certificate IV TAE40110

Senior Clinical Educator

For over ten years Marguerita worked as a Clinical Educator in ICU, Simulation and Acute Care settings. She has strong knowledge and skills in the areas of Vascular Access and Counterpulsation, and is an advocate for improving patient outcomes through evidence based clinical practice. This combined with Marguerita's extensive critical care experience ensures that she facilitates engaging clinical learning opportunities for all.
