

THE TELEFLEX
ACADEMY

Essentials of IABP 1 Day Workshop

Royal Hobart Hospital | TAS
24 August 2018

Teleflex

This workshop uses experiential learning to develop practical skills and strategies in the management of patients requiring IABP therapy

Learning Objectives

- Describe the key principles of IABP therapy
- Apply key principles to determine applications and contraindications
- Prepare and simulate insertion of an IAB catheter
- Demonstrate IABP set-up and start-up
- Demonstrate the use of IABP triggers
- Identify arterial waveform changes and relate to key principles
- Demonstrate the impact of IABP timing
- Use the balloon pressure waveform to troubleshoot IABP alarms
- Demonstrate weaning and removal of IAB catheter

Facilitator

Marguerita Cirillo

RN, BN, MN

Grad Dip ICU

Certificate IV TAE40110

Senior Clinical Educator

For over ten years Marguerita has worked as a Clinical Educator in ICU, Simulation and Acute Care settings. She has strong skills and knowledge in Vascular Access, Ventilation, Airway Management and IABP, and is an advocate for improving patient outcomes through evidence based clinical practice. Combined with her extensive critical care experience this ensures she facilitates outstanding learning opportunities for all participants.
