Through the ARROW brand, Teleflex provides an immense assortment of high-end products for vascular access. Thanks to the outstanding construction, the sheath introducers offered here reduce the potential for complications in both arterial and venous applications.

An outstanding kink-resistance due to use of our blend Polyurethane and our special stress-relief hub sleeve at the hub; reduced instances of peel-back or buckling thanks to the thicker tip and the heavy-walled design; ease of use and added protection against blood contamination through our exclusive Raulerson Syringe ensure a safe performance throughout the whole procedure.

Moreover, the wide array of sheaths sets and individual sheaths given, assures that you will have the flexibility in choices for multiple vascular applications.

* U.S. Patent Nos. 4,813,938, 5,045,065, and 5,913,814; additional international patents. Advanced Patent Nos. 6,477,402 and 5,484,419.

**EACH “CW” SET INCLUDES:**
- 1 – ARROW Radiopaque Polyurethane Sheath with Integral Side Port/Hemostasis Valve and attached 3-Way Stopcock
- 1 – Arrow Raulerson Syringe
- 1 – Vessel Dilator with Snap-Lock Feature
- 1 – 17 3/4” (45 cm) long dual purpose spring-guide (straight soft tip on one end, “J” tip on the other end) with Arrow Advance

**Pediatric set (*) has .021” dia. and all others have .035” dia. wire guide**
- 1 – 18 Ga. x 2 1/2” T.W. Needle

**EACH “CL” SET INCLUDES:**
- 1 – ARROW Radiopaque Polyurethane Sheath with Integral Side Port/Hemostasis Valve and attached 3-Way Stopcock
- 1 – Vessel Dilator with Snap-Lock Feature

**STANDARD (11 CM) INTRODUCER SETS INCLUDE:**
- Sheath with 11 cm (4 3/8”) useable length
- Dilator which accepts .035” to .038” guide wires
- Sheath with hydrophilic coating on 1” of tip
- Dilator with 5cm exposed length when snap-locked into sheath

**SHORT (7.5 CM) INTRODUCER SETS INCLUDE:**
- Sheath with 7.5 cm (2 15/16”) useable length
- Dilator which accepts .021” to .025” guide wires
- Sheath with hydrophilic coating on 1” of tip
- Dilator with 3cm exposed length when snap-locked into sheath
