CONVENTIONAL FLUID-FILLED CATHETER OPTIONS
Meeting your counterpulsation needs
TAKE CONFIDENCE IN OUR CATHETERS

Trusted brands make Teleflex a reliable and strong partner. Built on a solid tradition of innovation, Teleflex is a global leader in superior medical supplies designed to help providers minimise risk and maximise outcomes for their patients. Our understanding of the importance to our customers of a full range of products has led to the development of a unique line of medical devices, all of which complement one another.

Our Arrow brand is leading in intra-aortic balloon (IAB) therapy with the goal to provide products and services that meet your every counterpulsation need. Nowhere is that more clear than in our extensive and varied offering of IAB catheters.

Whether you’re looking for the first fiber-optic catheter on the market, the smallest and only wire-reinforced catheter available, or a wide range of conventional fluid-filled catheters, you can be confident that you’re getting top-of-the-line quality and product reliability – for optimal IAB performance.

You can find further details and the technical specifications of our products within this brochure.

TELEFLEX – HIGH QUALITY MEDICAL SUPPLIES FROM A SINGLE SOURCE
BUILT-IN PERFORMANCE FEATURES ON ALL ARROW IAB CATHETERS

**TWO SHEATH OPTIONS**
- each insertion kit includes a standard sheath and a sheath with a sidearm
- locking dilator with dual-taper design enhances insertion

**OPTIONAL HAEMOSTASIS DEVICE**
- for sheathless insertion, this device is provided to help control bleeding without removing catheter

**TWO 175-CM, EXTRA-STIFF, PTFE-COATED GUIDEWIRES**
- spare specialised guidewire available for your convenience
- no need to chase down a special wire when needed

**TUBING FOR CONNECTION TO OTHER MODEL PUMP CONSOLES**
- additional, separate sterile package of driveline gas tubing for connection to other model pump consoles

**LARGE CENTRAL LUMEN**
- crisp, clear AP waveform
- minimises the risk of central lumen clotting

**HYDROPHILIC COATING ON CATHETER**
- clinical study shows a 72% reduction in ischemic vascular events
- reduces coefficient of friction and enhances insertion ease

**DURABLE CARDIOTHANE™II BALLOON MEMBRANE**
- offers a unique design of abrasion-resistant material with hydrophilic coating

**PATIENT-SIZING INFORMATION AND MULTIPLE LANGUAGE LABELING**
- patient size selection on outside of box for convenience
- labelling in several languages

**UNIVERSAL INSERTION KIT**
- each catheter can be inserted either through a sheath or sheathless

References:
ULTRA SERIES
ULTRAFLEX™ 7.5 & ULTRA 8®: BUILT FOR PERFORMANCE

- IAB catheters that fit through an 8.0 Fr. sheath
- UltraFlex model enhances kink resistance with wire-reinforced catheter body
- .025" guidewire for trackability

ULTRAFLEX 7.5
- kink-resistant, wire-reinforced catheter body
  - strong, flexible catheter body resists kinking for optimal gas exchange
  - maintains the circular shape of the gas lumen to help ensure consistent patient support
- the smallest wire-reinforced 30 cc and 40 cc IAB catheter
  - maximizes arterial blood flow and helps reduce limb ischemia due to 7.5 Fr. catheter size
- crisp, clear AP waveforms
  - High performance without the need for frequent flushings

ALSO AVAILABLE: ULTRA 8
- fits through 8.0 Fr. sheath
  - 8.0 Fr. 40 cc catheter offers performance of 9.0 Fr. catheter
- large .027" central lumen design
  - minimizes the risk of central lumen clotting
- soft, atraumatic blue bumper tip

THE NARROWFLEX® SERIES
NARROWFLEX 8: FLEXIBILITY MEETS STABILITY

- .030" guidewire – largest wire available for tracking
- large .032" central lumen diameter for excellent AP signal transmission
- kink-resistant, wire-reinforced catheter body for rapid inflation/deflation of balloon

- kink-resistant wire reinforcement
  - strong, flexible catheter body resists kinking for optimal AP waveform
  - maintains the circular shape of the gas lumen to help ensure consistent patient support
- crisp, clear AP waveforms
  - high performance without the need for frequent flushings
- large .032" central lumen design
  - nitinol material for added stability and ease of catheter insertion
  - helps reduce catheter whip that interferes with AP waveform clarity
  - highly radiopaque tip for easy visibility
  - accepts .030" guidewire
REDIGUARD®
FLEXIBLE CATHETER CHOICES

- flexible, soft catheter design
- smallest IAB catheter available—7.0 Fr. 30 cc
- .027” wire-reinforced central lumen design

- flexible, soft central lumen design
  – pliable, wire-reinforced central lumen; accepts .025” guidewire
- 7.0 Fr. 30 cc IAB catheter
  – smallest catheter available for patients under 162 cm in height
- wide range of flexible IAB catheters
  – 7.0 Fr. 30 cc
  – 8.0 Fr. 40 cc
  – 9.0 Fr. 50 cc
- centimeter markings on catheter body for placement

SHEATH OPTION:
Whether your need is for a conventional sheath or a sheath with a sideport for optional arterial blood sampling, you’ll find both options as a standard offering with ARROW IAB kits.

All ARROW IAB catheters are latex-free.
Teleflex is a leading global provider of specialty medical devices used for diagnostic and therapeutic procedures in critical care, urology and surgery. Our mission is to provide solutions that enable healthcare providers to improve outcomes and enhance patient and provider safety. We specialise in devices for general and regional anaesthesia, cardiac care, respiratory care, urology, vascular access and surgery and we serve healthcare providers in more than 130 countries. Teleflex also provides specialty products for medical device manufacturers.

Our well known brands include ARROW®, BEERE MEDICAL®, DEKNATEL®, GIBECK®, HUDSON RCI®, KMEDIC®, PILLING®, PLEUR-EVAC®, RUSCH®, SHERIDAN®, SMD®, TAUT®, TFX OEM®, VASONOVA™ and WECK®, all of which are trademarks or registered trademarks of Teleflex Incorporated.

Teleflex global operations: Austria, Belgium, Canada, China, Czech Republic, France, Germany, Greece, India, Ireland, Italy, Japan, Mexico, Netherlands, Portugal, Singapore, Slovak Republic, South Africa, Spain, Switzerland, United Kingdom, Uruguay and USA.
