The EZ-IO® Power Driver is intended for use in an electromagnetic environment in accordance with the guidelines and manufacturer’s declaration specified below. The customer or the user of the EZ-IO® Power Driver should assure that it is used in compliance with these guidelines.

### Guidance and Manufacturer’s Declaration — Electromagnetic Immunity

**NOTE 1**: At 80 MHz and 800 MHz, the separation distance for the higher frequency range applies. **NOTE 2**: These guidelines may not apply in all situations. Electromagnetic propagation is affected by absorption and reflection from structures, objects, and people.

**Guidance and Manufacturer’s Declaration — Electromagnetic Emissions**

In accordance with the guidelines and manufacturer’s declaration specified below, the customer or the user of the EZ-IO® Power Driver should assure that it is used in compliance with these guidelines.

### Recommended separation distances between portable and mobile RF communications equipment and the EZ-IO® Power Driver

- **Distance separation in feet** (minimum)
- **Frequency range** (MHz)
- **Note**

<table>
<thead>
<tr>
<th>Distance separation (feet)</th>
<th>Frequency range (MHz)</th>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>800 to 2,500</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>2,500 to 5,000</td>
<td></td>
</tr>
<tr>
<td>5</td>
<td>5,000 to 10,000</td>
<td></td>
</tr>
<tr>
<td>7</td>
<td>10,000 to 20,000</td>
<td></td>
</tr>
</tbody>
</table>

**NOTE**: The EZ-IO® Power Driver is intended for use in an electromagnetic environment in accordance with the guidelines and manufacturer’s declaration specified below. The customer or the user of the EZ-IO® Power Driver should assure that it is used in compliance with these guidelines.

### Declaration—Electromagnetic Immunity

- **Frequency**: 80 MHz to 800 MHz
- **Voltage**: ±1 kV differential
- **Interruptions and Other Events**: The EZ-IO® Power Driver is not intended for use in an electromagnetic environment in accordance with the guidelines and manufacturer’s declaration specified below. The customer or the user of the EZ-IO® Power Driver should assure that it is used in compliance with these guidelines.

**NOTE**: The EZ-IO® Power Driver is intended for use in an electromagnetic environment in accordance with the guidelines and manufacturer’s declaration specified below. The customer or the user of the EZ-IO® Power Driver should assure that it is used in compliance with these guidelines.

### Declaration—Electromagnetic Emissions

- **Class B**: RF Emissions, CISPR 11 Group 1
- **NOTE 1**: At 80 MHz and 800 MHz, the separation distance for the higher frequency range applies. **NOTE 2**: These guidelines may not apply in all situations. Electromagnetic propagation is affected by absorption and reflection from structures, objects, and people.

### Declaration—Environmental Emissions

- **NOTE**: Equipment not suitable for use in the presence of a flammable anesthetic mixture at any concentration.
- **NOTE**: Equipment not suitable for use in the presence of a hydrogen or hydrocarbon gas mixture at any concentration.
