Subject: UDI Implementation and Data Requests

Dear Teleflex Customer:

Teleflex endorses the use of the GS1 Standard and System for both product identification and e-commerce enabling. The system includes the deployment of Global Location Number (GLN), Global Trade Item Number (GTIN), and Global Data Synchronization Network (GDSN) requirements.

With growing regulatory demand for Unique Device Identification (UDI) globally, Teleflex is committed to meeting all regulatory objectives within the timelines stipulated by regulators around the world, please refer to each independent country requirement to understand Teleflex objectives and targets.

Teleflex has partnered with 1WorldSync as our Global Data Synchronization Network® (GDSN)-certified data pool to standardize our healthcare product information. With this network, our supply chain partners can access identical, up-to-date and reliable product data efficiently.

Teleflex acknowledges the benefits of the GS1 system, including the implementation of UDI through the supply chain to the point of care. We are committed to ensuring patient safety and we fully appreciate the benefit UDI brings to that initiative. In short, our program meets all Global Harmonization and GS1 Standards for Medical Device Identification.

Our general UDI information page can be found at: www.teleflex.com → Services → GS1 Standards in Healthcare, Unique Device Identification (UDI)

If you would like to receive UDI data from Teleflex, please complete the following steps:
1. If you haven't done so already, subscribed to Teleflex's GLN: **0801902000002** through your data pool. *Note: Review the Teleflex Quick Start Implementation Guide for additional details.*
2. Once a subscription has been successfully submitted, please complete Teleflex's Registration Form.
   a. Upon clicking "Submit", the form will automatically be emailed to Teleflex.
3. Upon subscription and registration process completion, you need to send CS@teleflex.com your completed Teleflex SKU Template that lists all Teleflex SKU's that you wish to receive.
4. After all of the above, have been verified, Teleflex will then publish the requested data to your data pool and request a Catalog Item Confirmation (CIC) Synchronized message be returned to Teleflex to complete the process.

Should all of the above mean very little to you, then we would encourage you to go to the following link (www.gs1.org/healthcare/share-data-gdsn) for more information. If you have any additional question, please contact our customer services department at +1 866-246-6990.

Sincerely,
Teleflex Incorporated
