Benefits

The Medic
Lightweight and compact; easily stored in medic bag

The Agency
FAST1™ Intraosseous Infusion System has a 2-year shelf life

The Patient
Delivers lifesaving fluids and medications rapidly and effectively

Manual Insertion
Manual IO device indicated for sternal insertion. The Target Patch provides insertion guidance for exact placement. Suitable for patients aged 12 and over.

Intuitive
• Designed for pre-hospital providers
• Ideal for downrange conditions
• Protector Dome included

Rapid Treatment Access
Provides rapid IO access to facilitate emergency resuscitation when standard venous access is not possible. Device can be effectively used during CPR and when a cervical spine collar is in place.¹

Convenient
• Depth control
• Low profile infusion tubing
• Small footprint 8.5 in x 8.0 in x 1.3 in
• Lightweight 127.6 g
• Manual insertion – no batteries required
